SECTION 1 - PRODUCT IDENTIFICATION

	•			
Product identifier/Trade name: TABEX A	ALGYSOLVE 22	50		
Product code/Internal Identification: 01-	1054, 01-10541, 1	4-1051, 14-1051	1, 92-14105	
PC	P# 25275			
Product use/Description: Pool product				
Product chemical name: Mixture				
Chemical family: Mixture				
MSDS preparation/review date: March 20				
	IC., 2770 – 24 Ave 194 or 1-800-661-8		ry, Alberta, T1Y 6V7	
Manufacturer identifier: Same as su	pplier.			
Emergency phone number: Canutec 61	3-996-6666.			
WHMIS Classification: D2B – Toxic mate	rial with other effe	ects		
SECTION 2 - HAZARDS IDENTIFICAT	ION			
Primary entry route(s):Skin contact, skEffects of short-term (acute) exposure:Inhalation:May cause irritation to the nose, toSkin:Direct skin contact may cause slight	POTENTIAL HE in absorption, eye hroat and respirato to moderate irritat	ALTH EFFECT contact, ingestio ry tract. ions.	n and inhalation.	tinging toging an
<i>Eye:</i> Direct eye contact may cause slight pain.	to moderate eye	irritations. Symp	toms may include redness, s	tinging, tearing and
<i>Ingestion:</i> Ingestion may cause irritation to nausea, headache and other central			Symptoms may include dia	zziness, drowsiness
Effects of long-term (chronic) exposure:				
Refer to Section 11, Toxicological Informat	ion, for further inf	ormation.		
Other important hazards:				
Refer to Section 11, Toxicological Informat	ion, for further inf	ormation.		
SECTION 3 - CHEMICAL COMPOSITIO	ON / HAZARDO	US INGREDIE	NTS	
Hazardous Ingredients	CAS #	% (weight)	LD ₅₀ (route, species)	LC ₅₀ (species)
Poly(oxyethylene(dimethylimino)-ethyl- dimethylimino)-ethylene dichloride	31512-74-0	10-30	1850 mg/kg (oral, rat)	N/Av

imethylimino)-ethylene dichloride Triethanolamine 102-71-6 5-10 7.39 g/kg (oral, rat) N/Av Copper sulfate 7758-98-7 5-10 960 mg/kg (oral, rat) N/Av Diethanolamine 111-42-2 0.5-1.5 620 µL/kg (oral, rat) N/Av 7640 µL/kg (dermal, rabbit)

SECTION 4 - FIRST AID MEASURES

Inhalation:

Remove source of contamination or have victim move to fresh air. If not breathing, give artificial respiration. Obtain medical attention immediately.

Skin contact:

Wash contaminated area with running water for at least 15-20 minutes, while removing contaminated clothing. Obtain medical attention. Launder contaminated clothing before re-use.

Eye contact:

Immediately flush the contaminated eye(s) with gently flowing water for at least 15-20 minutes. Obtain medical attention.

Ingestion:

NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. DO NOT INDUCE VOMITING. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Repeat administration of water. Obtain medical attention immediately.

SECTION 5 - FIRE FIGHTING MEASURES

Fire hazards/conditions of flammability: Does not burn under normal handling conditions.

Flash point (Method): $> 100^{\circ}C$

Lower flammable limit (% by volume): N/Av

Upper flammable limit (% by volume): N/Av

Sensitivity to mechanical impact: Probably not sensitive. Probably not sensitive.

Sensitivity to static discharge:

Auto-ignition temperature: N/Av

Suitable extinguishing media: Carbon dioxide, dry chemical powder and appropriate foam for surrounding products.

Special fire-fighting procedures/equipment:

During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

Carbon oxides and other irritating fumes and smoke. Hazardous combustion products:

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions:

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. Remove all ignition sources. Remove or isolate flammable and combustible materials. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

Spill response/Cleanup:

Ventilate area of release. Eliminate all sources of ignition. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

Environmental precautions:

Confine spill, preventing it from entering sewer lines or waterways. Dispose of as per local, state and federal regulations.

SECTION 7 - HANDLING AND STORAGE

Safe handling procedures:

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Do not use near welding operations, flames or hot surfaces. Handling equipment should be properly grounded. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dusts, vapours or mists. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials such as strong oxidizing materials. Keep containers closed when not in use. Empty containers are always dangerous. Assume that empty containers contain residues which are hazardous.

Storage requirements:

Store in a cool, dry, well-ventilated area out of direct sunlight, away from heat and ignition sources. Store away from incompatible materials. Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Incompatible materials:

STRONG OXIDIZING MATERIALS, anionic polymers, ...

SECTION 8 - EXPOSURE CONTROLS AND PERSO	NAL PROTECT	TION		
Exposure limits: There is no available data for the produced of the product of			t exposure limit	s.
	OSHA PEL		ACGIH TLV	
Ingredient	TWA	STEL	TWA	STEL
Poly(oxyethylene(dimethylimino)-ethyl- dimethylimino)- ethylene dichloride	N/Av	N/Av	N/Av	N/Av
Triethanolamine	N/Av	N/Av	5 mg/m^3	N/Av
Copper sulfate	1 mg/m^3	N/Av	1 mg/m^3	N/Av
Diethanolamine	N/Av	N/Av	1 mg/m^3	N/Av
 Engineering controls: Use under well-ventilated conditions. Local exhaust v contaminants below exposure limits. Respiratory Protection: Respiratory protection is required if the concentrations are if the exposure limits are unknown. 				
 Protective Clothing/Equipment: Chemically protective gloves (impervious), and other protective development of the eyes. Make emergency eyewash stations, safety/quick-General Hygiene Considerations: Avoid generating high concentrations of dusts, vapours or vapours or mists. Never eat, drink, or smoke in work areas and wash contaminated work clothing before re-use. 	mical splash gogg drench showers, a mists. Avoid con	les to prevent mist, nd washing facilities ntact with skin and o	vapour and dus available in wo eyes. Avoid bre	t from enteri rk area. athing dusts,

SECTION 13 - WASTE DISPOSAL				
Handling and storage conditions for disposal: Store ma	terial for disposal	as indicated in Hand	ling and Storage	e (Section 7)

Handling and storage conditions for disposal:Store material for disposal as indicated in Handling and Storage (Section 7).Methods of disposal:Review federal, provincial and local government requirements prior to disposal.

SECTION 14 - TRANSPORTATION INFORMATION

Transportation of Dangerous Goods Regulations (TDGR) :

TDG Classification: NOT REGULATED in Canada.

Special case: V S

NOT REGULATED in Canada. **When shipped by boat according to the IMDG Code** UN3082, ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S., (Poly(oxyethylene(dimethylimino)-ethyl- dimethylimino)-ethylene dichloride), Class 9, P.G. III, MARINE POLLUTANT

SECTION 15 - REGULATORY INFORMATION WHMIS information: Product is regulated according to the Controlled Product Regulations (CPR) in Canada. Refer to Section 1 for the appropriate WHMIS classification. This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and this MSDS contains all the information required by the CPR. **Canadian Environmental Protection Act (CEPA) information:** The ingredients in this product are listed on the DSL. **United States OSHA information:** This product is regulated according to OSHA. This MSDS contains all the information required by OSHA. United States TSCA information: The ingredients in this product are listed on the TSCA. National Fire Protection Association (NFPA): HEALTH: 1 FLAMMABILITY: 1 **INSTABILITY: 0** SPECIAL HAZARDS: Refer to Section 1 & 3. HAZARD SCALE: 0 = Minimal 1 =Slight 2 =Moderate 3 = Serious 4 = Severe New Jersey Labeling Requirements: Ingredients to be disclosed on product labelling: Refer to Section 3. This product contains chemicals that are known to the State of California to cause cancer or other **California Proposition 65:** reproductive harm. **SECTION 16 - OTHER INFORMATION** NSS ENTREPRISE INC. for TABEX INC. **Prepared by:** Tel. 514-239-8785 or 403-250-2494 or 1-800-661-8179 **Telephone number: References:** 1.
