### **SECTION 1 - PRODUCT IDENTIFICATION**

Product identifier/Trade name: TABEX TOTAL ALKALINITY UP				
Product code/Internal Identifica	ation: 02-131, 02-1311, 02-132, 02-1321, 02-13227, 02-1325, 02-1381			
<b>Product use/Description:</b>	Increases total alkalinity of pool water and helps balance pH control.			
Product chemical name:	Sodium Bicarbonate			
Chemical family:	Sodium Bicarbonate			
MSDS preparation/review date:	March 20, 2017			
Supplier identifier:	TABEX INC., 2770 – 24 Avenue N.E., Calgary, Alberta, T1Y 6V7			
	403-250-2494 or 1-800-661-8179			
Manufacturer identifier:	Same as supplier.			
<b>Emergency phone number:</b>	Canutec 613-996-6666.			
WHMIS Classification: D2B	B – Toxic material with other effects			

#### **SECTION 2 - HAZARDS IDENTIFICATION**

#### **Emergency Overview**

May cause slight eye irritation.

#### **\*POTENTIAL HEALTH EFFECTS\***

**Primary entry route(s):** Skin contact, skin absorption, eye contact, ingestion and inhalation.

#### Effects of short-term (acute) exposure:

Inhalation: May cause slight transient irritation to the nose, throat and respiratory tract.

*Skin:* Direct skin contact may cause slight transient irritation.

*Eye:* Direct eye contact may cause slight eye irritation. Symptoms may include redness, stinging, tearing and pain.

Ingestion: Ingestion may cause slight transient irritation to the mouth, throat and stomach.

#### Effects of long-term (chronic) exposure:

Refer to Section 11, Toxicological Information, for further information.

#### Other important hazards:

Refer to Section 11, Toxicological Information, for further information.

#### SECTION 3 - CHEMICAL COMPOSITION / HAZARDOUS INGREDIENTS

Hazardous Ingredients	CAS #	% (weight)	LD <sub>50</sub> (route, species)	LC <sub>50</sub> (species)
Sodium Bicarbonate	144-55-8	100	4220 mg/kg (oral, rat)	N/Āv

## **SECTION 4 - FIRST AID MEASURES**

#### Inhalation:

Remove source of contamination or have victim move to fresh air. If not breathing, give artificial respiration. Obtain medical attention immediately.

#### Skin contact:

Wash contaminated area with running water. Obtain medical attention.

### Eye contact:

Immediately flush the contaminated eye(s) with gently flowing water for at least 15-20 minutes. Obtain medical attention. **Ingestion:** 

NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. DO NOT INDUCE VOMITING. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Repeat administration of water. Obtain medical attention immediately.

#### SECTION 5 - FIRE FIGHTING MEASURES

Fire hazards/conditions of flammability: Does not burn under normal handling conditions.

Flash point (Method): N/Av

Lower flammable limit (% by volume): N/Av

Upper flammable limit (% by volume): N/Av

Sensitivity to mechanical impact:Probably not sensitive.Sensitivity to static discharge:Probably not sensitive.

Sensitivity to static discharge: Auto-ignition temperature: N/Av

**Suitable extinguishing media:** Carbon dioxide, dry chemical powder and appropriate foam for surrounding products.

#### Special fire-fighting procedures/equipment:

During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

Hazardous combustion products: Carbon oxides and other irritating fumes and smoke. Sodium carbonate and sodium oxide.

#### SECTION 6 - ACCIDENTAL RELEASE MEASURES

#### **Personal precautions:**

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

#### Spill response/Cleanup:

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

#### **Environmental precautions:**

Confine spill, preventing it from entering sewer lines or waterways. Dispose of as per local, state and federal regulations.

### SECTION 7 - HANDLING AND STORAGE

#### Safe handling procedures:

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dusts, vapours or mists. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials such as strong oxidizing materials. Keep containers closed when not in use. Empty containers are always dangerous. Assume that empty containers contain residues which are hazardous.

#### **Storage requirements:**

Store in a cool, dry, well-ventilated area out of direct sunlight, away from heat and ignition sources. Store away from incompatible materials. Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

#### **Incompatible materials:**

Strong acids, ...

Hazardous decomposition products: None known. Refer to 'Hazardous combustion products', Section 5.

## SECTION 11 - TOXICOLOGICAL INFORMATION

#### Toxicological data:

There is no available data for the product itself, only for the ingredients. For more details, refer to Section 3. Carcinogenicity: No ingredient is listed by IARC, ACGIH, NTP or OSHA as a carcinogen. Teratogenicity, mutagenicity, other reproductive effects: N/Av Skin sensitization: N/Av Respiratory tract sensitization: N/Av Conditions aggravated by exposure: N/Av Synergistic materials: N/Av

## SECTION 12 - ECOLOGICAL INFORMATION

 Environmental effects:
 There is no available data on the product itself.

 Important environmental characteristics:
 N/Av

 Aquatic toxicity:
 N/Av

## SECTION 13 - WASTE DISPOSAL

Handling and storage conditions for disposal:Store material for disposal as indicated in Handling and Storage (Section 7).Methods of disposal:Review federal, provincial and local government requirements prior to disposal.

## SECTION 14 - TRANSPORTATION INFORMATION

Transportation of Dangerous Goods Regulations (TDGR) :

TDG Classification: NOT REGULATED

Special case: N/Ap

#### SECTION 15 - REGULATORY INFORMATION

#### WHMIS information: Product is regulated according to the Controlled Product Regulations (CPR) in Canada. Refer to Section 1 for the appropriate WHMIS classification. This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and this MSDS contains all the information required by the CPR. **Canadian Environmental Protection Act (CEPA) information:** The ingredients in this product are listed on the DSL. **United States OSHA information:** This product is regulated according to OSHA. This MSDS contains all the information required by OSHA. **United States TSCA information:** The ingredients in this product are listed on the TSCA. National Fire Protection Association (NFPA): HEALTH: 1 FLAMMABILITY: 0 **INSTABILITY: 0** SPECIAL HAZARDS: Refer to Section 1 & 3. HAZARD SCALE: 0 = Minimal 1 =Slight 2 =Moderate 3 = Serious 4 = Severe **New Jersey Labeling Requirements:** Ingredients to be disclosed on product labelling: Refer to Section 3. This product does not contain chemicals that are known to the State of California to cause cancer or **California Proposition 65:** other reproductive harm. **SECTION 16 - OTHER INFORMATION**
