

CLEAR IT Tabex® TECHNICAL DATA SHEET

What is Clear It?

- ◆ a highly concentrated swimming pool water clarifier
- ◆ may be used in any size or type of swimming pool ie. Above ground, in-ground, vinyl or concrete
- ◆ effective with any type of filtration system
- ◆ used regularly will assure crystal clear water under all conditions
- ◆ does not affect the pH or water balance
- ◆ compatible with any type of chlorine, bromine, or salt chlorination system

How does Clear It work?

- ◆ it works independently of the chemical balance, so, there is no requirement for chemical adjustment before use
- ◆ reduces the organic contamination of pool water by coagulating fine suspended particles much too small for the filter to trap, making them larger groups of particles
- ◆ these larger groups of particles are readily trapped in the filter and removed from the pool water
- ◆ used regularly Clear-It will actually reduce the amount of chlorine or algaecide you would need to keep your pool sparkling clear

Dosage Rates

- ◆ dilute it with clean water in a plastic bucket according to its directions, 15 mL per 10, 000 L of pool or spa water
- ◆ for immediate improvement add 25% of the solution to skimmer and distribute the remaining mixture evenly around the pool surface, concentrating on dosage at the deep end

When can I use the pool?

- ◆ safe to use 15 minutes after treatment

When do I use it?

- ◆ should be used weekly to maintain crystal clear water and immediately after a heavy rainfall or before a pool party
