

Section 1		Identification of the substance/mixture and the company
1.1	Product identifier	HydroQuant[®] reagent CIE
1.2	Relevant identified uses of the substance or mixture and uses advised against	
	Use of substance	Reagent solution for the determination of chlorine dioxide REACH: This product is a preparation
1.3	Supplier	WAPOTEC GmbH Franz-Sauer-Strasse 44 A-5020 Salzburg Tel: +43 662 434342-0 Fax: +43 662 434342-3
	Contact	Mr. G. Weiss Email: office@wapotec.at
1.4	Emergency phone	+43 662 43 43 42-0 Office hours: MO - TH: 8.00 - 16.00, FR: 8.00 - 12.00 Toxicity information centre Vienna: Phone: +43 1 406 43 43 Available 0-24h

Section 2		Hazards identification
2.1	Hazard classification of substance or mixture	 According to Directive (EC) N° 1272/2008 Not applicable. The product is not classified as hazardous.
2.2	Label elements	 According to Directive (EC) 1272/2008 Not applicable. The product is not classified as hazardous according to Directive (EC) 1272/2008  Danger defining components for labeling Not applicable.
2.3	Other hazards.	Not applicable.

Section 3		Composition/information on ingredients
3.2	Mixtures	

☉ Chemical characteristics

Aromatic aqueous solution

CAS-N°. -

EC-N°. -

☉ Dangerous ingredients:

Not applicable.

☉ Other information

Not applicable.

Section 4

First-aid measures

4.1 Description of first aid measures

☉ After inhalation

Supply fresh air. Consult physician.

☉ After skin contact

After skin contact, wash with plenty of water, remove contaminated clothing. In case of symptoms consult physician.

☉ After eye contact

After eye contact, rinse eye for several minutes (at least 10 minutes) under running water holding eye lids open. In case of symptoms consult physician.

☉ After ingestion

Immediately give plenty of water (400-500 ml), avoid vomiting. Do not attempt to neutralize. Get medical advice immediately.

4.2 Most important symptoms and effects, acute and delayed.

No further relevant information available.

4.3 Indications for immediate medical attention or special treatment needed

No further relevant information available.

Section 5

Fire-fighting measures

5.1 Extinguishing media

☉ Suitable extinguishing media

Adapt extinguishing measures to suit the environment.

☉ Unsuitable extinguishing media for safety reasons

No data available.

5.2 Special hazards arising from the substance or mixture

Not combustible.

Ambient fire may liberate hazardous vapors. Nitrogen oxides (NO_x), sulfur oxides.

5.3 Special protective actions for fire-fighters

☉ Special protective equipment

Wear self-contained breathing apparatus.
Wear full protective suit.

☉ Additional information

Prevent fire extinguishing water from contaminating surface water or the ground water system. Suppress gases/vapors/mists with a water spray jet.

Section 6 **Accidental release measures**

6.1 Personal precautions, protective equipment and suitable emergency procedures.

Do not inhale vapors/aerosols. Avoid substance contact. Ensure adequate ventilation.

6.2 Environmental precautions

Do not empty into drains.

6.3 Measures for cleaning/collecting:

Take up with liquid-absorbent and neutralizing material.
Forward for disposal.
Final cleaning.

6.4 Additional information

Information on protective measures see section 8
Information on disposal see section 13

Section 7 **Handling and storage**

7.1 Precautions for safe handling

Observe advice on the label or analysis specification.

7.2 Conditions for safe storage including any incompatibilities

Store container tightly closed.

☉ Fire and explosion protection measures

No particular protection measures necessary. Do not smoke.

☉ Design of storage rooms and container

Store in a cool location.
Protect from heat and direct sunlight.
Protect from humidity and keep away from water.
Protect from the effects of light.
Store under dry and cool conditions.
Store in a tightly closed container

☉ Recommended storage temperature: +5 °C to +20 °C, protect from sun

- ☉ Material incompatibility

No material incompatibility known.

- ☉ VbF class: Not applicable.

7.3

Specific end uses

Reagent solution for the determination of chlorine dioxide.

Section 8

Exposure controls and personal protection

8.1

Control parameters

The product does not contain relevant quantities of substances with monitored limits based on the workplace.

8.2

Exposure controls

- ☉ General protective and hygiene measures

Follow usual precautions when dealing with chemicals. Keep away from food, drinks and feed stuff. Do not eat or drink at work, wash hands before breaks and end of work. Change contaminated work wear and clean it before the next wearing. Preventive skin protection.

Protective equipment should be selected specifically for the working place, depending on concentration and quantity of the hazardous substances handled. The resistance of the protective clothing to chemicals should be ascertained with the respective supplier.

- ☉ Respiratory protection

Necessary with appearance of vapors/aerosols. Recommended filter : Filter type E

- ☉ Hand protection

Wear protective gloves.

The selection of suitable gloves not only depends on the material, but also on other quality characteristics and varies from manufacturer to manufacturer.

The final selection of the glove material must be carried out based on breakthrough times, permeation and the degradation.

Suitable glove material (full contact, splash contact): Nitrile rubber (recommended thickness of the material: ≥ 0.11 mm.

Break through time > 480 min)

- ☉ Eye protection

Tightly sealed goggles

- ☉ Personal protection

Wear acid proof protective clothing.

Preventive skin protection, wash hands and face after working with substance.

- ☉ Environmental exposure controls

Product can be discharged directly to the local sewage system if diluted with large amounts of water and if in the absence of mandatory legal provisions to the contrary.

Section 9**Physical and chemical properties**

9.1	Information on basic physical and chemical properties	
	Appearance	Liquid
	Colour	Colorless
	Odour	Odorless
	Odour threshold	Not available
	pH-value (20 °C)	6-7
	Melting point	Not available
	Boiling point / Boiling range	Approx. 100 °C
	Flash point	Not applicable
	Evaporation rate	Not available
	Flammability	Product is not flammable
	Upper explosion limit	Not available
	Lower explosion limit	Not available
	Vapor pressure (20 °C)	Approx. 15 mbar
	Density (20 °C)	1.05 g/cm ³
	Solubility in water (20 °C)	Soluble, miscible as required
	Partition coefficient: n-octanol-water	Not available
	Ignition temperature	Not available
	Decomposition temperature	Not available
	Viscosity (20°C)	Not available
	Explosive properties	Product is not explosive
	Oxidizing properties	Not available
9.2.	Other information	
	None.	

**Section 10****Stability and reactivity**

10.1	Reactivity
	No data available.
10.2	Chemical stability
	No data available.
10.3	Possibility of hazardous reactions
	No data available.
10.4	Conditions to avoid

- Avoid extreme temperatures.
- 10.5 Incompatible material
Avoid strongly oxidizing agents.
- 10.6 Hazardous decomposition products
Hazardous products of decomposition are not known.

Section 11 Toxicological information

- 11.1 Information on toxicological effects
 -  LD/LC₅₀ values of individual components relevant for classification (literature values)
Oral - LD50 rat
Dose: 1280 mg/kg (related to pure substance)
 -  Primary irritant effect
 -  Skin irritation
No irritation
 -  Eye
No irritation.
 -  Sensitization
No sensitizing effects known.
 -  Cancerogenity
The product does not contain any ingredients at a concentration equal or higher than 0,1%, being listed as carcinogen at the International Agency for Cancer Research (IARC) or the American Conference for Governmental Industrial Hygienic (ACGIH).
 -  Mutagenicity
The product does not contain any ingredients at a concentration equal or higher than 0.1%, being classified as mutagen.
 -  Reproductive toxicity
The product does not contain any ingredients at a concentration equal or higher than 0.1%, being classified as reprotoxic.
 -  Additional information:
Observe the general safety regulations when handling chemicals.

Section 12 Ecological information

- 12.1 Toxicity
Quantitative data on the toxicity of this product are not available.

- 12.2 Persistence and degradability
No relevant information available.
- 12.3 Bioaccumulation potential
No relevant information available.
- 12.4 Mobility in soil
No relevant information available.
- 12.5 Results of PBT- and vPvB-assessment
No data available.
- 12.6 Other adverse effects
No adverse effects known. Product does not contain organically bound halogen.

Section 13

Disposal considerations

- 13.1  Waste treatment methods
Product can be discharged directly to the local sewage system if diluted with large amounts of water and if in the absence of mandatory legal provisions to the contrary. Chemicals must be disposed of in compliance with national and regional regulations. Under www.retrologistik.de you will find country- and substance-specific information as well as contact partners.
-  Waste key number
Not applicable.
-  Waste name
Not applicable.
-  European waste catalogue
EWC-waste key is source-related.
The decision is up to the enduser.
-  Contaminated packaging material
Chemicals must be disposed of in compliance with national and regional regulations. Under www.retrologistik.de you will find country- and substance-specific information as well as contact partners.

Section 14

Transport information

- 14.1 UN-Number
ADR, RID, AND, IMDG, IATA: Void
- 14.2 Proper UN-shipping name
ADR, RID, AND, IMDG, IATA: Void
- 14.3 Transport hazard class

- ADR, RID, AND, IMDG, IATA: Void
- 14.4 Packaging group
ADR, RID, AND, IMDG, IATA: Void
- 14.5 Environmental hazards
Not applicable.
- 14.6 Special precautions for the user
Not applicable.
- 14.7 Transport in bulk according to Annex II of MARPOL agreement 73/78 and according to IBC-Code
Not applicable.

Section 15 Regulatory information

- 15.1 Safety-, health-, ambient- and legislation specific instructions for substance or mixture
This safety data sheet complies with the Regulations (EC) Reach N° 1907/2006.
National regulations:
Austria:
 -  ChemG 1996-amendment 2011.
This product is not classified hazardous (no hazardous preparation) according to the Austrian chemical legislation of 1996- amendment 2011.
 -  VbF - Directive about combustible liquids (BGBl 1991/240)
This product is not classified as combustible liquid acc. VbF.
 -  Hazardous incidence ordinance
Hazardous incidence ordinance, annex: not mentioned
- 15.2 Chemical safety assessment
Not applicable.

Section 16 Other information

The information provided on this SDS is correct to the best of our knowledge and information, but not to be considered as warranty or quality specification nor creates contractual relationship. The information given is designed only as a guidance for safe handling.

Since unknown risk potentials can never be completely ruled out, the product should be handled with the usual care when dealing with chemicals and only for the uses listed in Section 1.
